Feely boxes

Test out your sense of touch and explore natural textures with this fun game

You will need

Some empty egg boxes and the words below printed or written out on separate pieces of paper or card

- Put two words that describe opposite textures into each egg box e.g. hard and soft, light and heavy, wet and dry etc. Split yourselves into teams and give a feely box to each team.
- Each team must try to collect natural objects which can be described by the words found inside the box. You must keep these words secret from the rest of the teams!
- Arrange the items in your box so that all the items described by one word are on one side of the box and the opposite items are on the other side.
- Once everyone has finished collecting, each team should hide their secret words and swap boxes with another team and try and guess what their words are.

Heavy	Light	Hard	Soft
Prickly	Tickly	Rough	Smooth
Wet	Dry	Crunchy	Squidgy
