

Mini Treasures

Challenge your friends to a mini treasure box competition and see who can collect the most natural treasures in miniature

You will need

Some empty matchboxes or similar small sized boxes

How to play

Each player takes an empty box each (make sure they are all the same size) and then set the clock for your challenge. 15 mins should be about right but it can be any time you decide.

Your challenge is to fill your matchbox with as many natural objects from the garden you can find - a pebble, a leaf, a twig, a seed, a blade of grass, a feather - but no creatures! Make sure each object is different and that they can all fit inside your box.

At the end of the game, count how many objects you have - you score one point for each object.

Why not have a second game where you can only collect items that you didn't have in your box during the first round.
